

Advertising Hoarding Sponsorship Opportunity

COLGA F.C. Have recently carried out extensive works at their grounds in Kilcornan, Clarinbridge. This has involved the erecting of 6 foot high steel perimeter fencing around the impressive 16 Acre site as well as the installation of a new clubhouse facility with dressing room, showers, ref room, catering and meeting facilities. This new building directly overlooks the recently laid 3rd full size pitch at the far end of the ground which borders the levelled gravel car park which is soon to become the site for an Astro pitch installation.

Post and rail wooden fencing has also been erected running the length of the grounds main access road, this has been erected primarily to ensure the safety of our patrons from the traffic on site. The fencing totals 196M, with an additional 60M of fencing on either side of the new clubhouse.

This fencing offers prime advertising space as all visitors to the grounds have to pass this route to access the car park area.
